Medical Life Guard : An XHR Software Platform

Microsoft SQL Server 2005 Installation

By

Athanassios I. Hatzis, PhD

9th September 2010

Installation Overview

I. Objective:

Installation of Microsoft SQL Server 2005 Express Edition and attachment of MEDILIG database

II. **Prerequisites/Tested with**:

- 1. MSXML
- 2. .NET v2.5 or higher

III. Steps to follow:

1. Run Microsoft SQL Server 2005 Express Edition

From: .\MEDILIG\DB_MSQL\INSTALL_MSQL\SQLEXPR_32_SP3.exe

This is the latest service pack 32bit version for Microsoft SQL Server 2005 Express Edition

You may also decide to download and install other SQL Server 2005 components from Microsoft.

We recommend reviewing the installation process by looking on the following screen captures. Notice the various options and selections during the setup of Microsoft SQL Server.

	Installs software components required prior to installing SQL Server.
MICROSOFT SOFTWARE LICENSE TERMS MICROSOFT SQL SERVER 2005 EXPRESS EDITION SERVICE PACK 3 These license terms are an agreement between Microsoft Corporation (or based on where you live, one of its affiliates) and you. Please read them. They apply to the software named above, which includes the media on which you received it, if any. The terms also apply to any Microsoft * updates, * supplements, * Internet-based services, and * support services	SQL Server Component Update will install the following components required for SQL Server Setup: Microsoft SQL Native Client Microsoft SQL Server 2005 Setup Support Files The required components were installed successfully.

Microsoft SQL Server 2005 Express Edition Setup	🖟 Microsoft SQL Server 2005 Express Edition Setup
Configuration Options Configure user and administrator accounts	Error and Usage Report Settings Help Microsoft improve some of the SQL Server 2005 components and services.
Enable User Instances This option enables users without administrator permissions to run a separate instance of the SQL Server Express Database Engine.	Automatically send Error reports for SQL Server 2005 to Microsoft or your corporate error reporting server. Error reports include information regarding the condition of SQL Server 2005 when an error occurred, your hardware configuration and other data. Error reports may unintentionally include personal information, which will not be used by Microsoft.
Add user to the SQL Server Administrator role This option adds the user who is running the SQL Server Express installation program to the SQL Server System Administrator role. By default, users on Microsoft Windows Vista operating system are not members of the SQL Server System Administrator role.	Automatically send Feature Usage data for SQL Server 2005 to Microsoft. Usage data includes anonymous information about your hardware configuration and how you use our software and services. By installing Microsoft SQL Server 2005, SQL Server and its components will be configured to automatically send fatal service error reports to Microsoft or a Corporate Error Reporting Server. Microsoft uses error reports to improve SQL Server functionality, and treats all information as confidential.

3. Attaching the Pre-built Database Files by Using SQL Server 2005 Management Studio Express

- From the Start menu, point to Microsoft SQL Server 2005, and then click the SQL Server Management Studio icon. Connect with the default account.
- ii. Right-click Databases and select Attach...
- iii. Click Add... File name: .\MEDILIG\DB_MSQL\DATA_MDF\MEDILIG_dat.mdf or browse to search for the file to attach. Click OK

4. Attaching the Pre-built Files by Using SQL Commands

Double Click and run SQL Script :

.\MEDILIG\DB_MSQL\DATA_SQL\attach_medilig_neurosurgery.sql

The following screen captures shows successful installation of MEDILIG_NEUROSURGERY
